Zhenhao Liu

Hangzhou, China • liuzhenhao@westlake.edu.cn • likc1606.github.io • github.com/LikC1606

Education

Westlake University Hangzhou, China
Undergraduate Program in Artificial Intelligence 2024-Present
GPA: 3.753/4.3
Selected Coursework: Machine Learning (A+), Natural Language Processing (A), Large Language Models (A)

Research Interests

Automated scientific discovery; scientific agents; AI-assisted research workflows

Research Experience

Westlake University Hangzhou, China
Undergraduate Research, Westlake NLP Lab; Advisor: Prof. Yue Zhang 2024-Present

- Develop and evaluate AI-assisted research workflows for automated scientific discovery, spanning evidence curation, research-system integration, and end-to-end assessment.
- Research outputs include an accepted NLPCC 2026 poster as sole first author, contributions to two accepted EMNLP 2026 Main papers, and an integrated system for evidence-grounded evaluation of scientific originality.

Publications

RepDuet at NLPCC 2026 Chinese BabyLM: Task-Specific Hybrid Representations for the Cognitive Track
Zhenhao Liu, Qiujie Xie, Minjun Zhu, Zhiyuan Ning, Yixuan Weng, Pinzhang Li, Jiajun Wang, and Yue Zhang
NLPCC 2026 Shared Tasks (accepted poster); **sole first author** [Paper] [Model & Code]

- Designed task-specific hybrid representations for word- and sentence-level fMRI encoding; trained the models and evaluated them through controlled comparisons and participant-level stability analyses.
- Integrated **DeepScientist** into the end-to-end research workflow and released the model and inference code. The submission ranked first after reproduction by the organizers.

How Far Are AI Scientists from Changing the World? A Survey of Autonomous Scientific Discovery
Qiujie Xie et al. (including **Zhenhao Liu**)
EMNLP 2026 Main Conference (accepted) [OpenReview] [arXiv]
Contribution: Collected and curated evidence spanning the scientific discovery lifecycle, supporting the survey's synthesis of AI-scientist capabilities and unresolved barriers.

AI Drafts, Humans Judge: Quantifying the Human-AI Responsibility Boundary in Peer Review
Zhouyang Wang et al. (including **Zhenhao Liu**)
EMNLP 2026 Main Conference (accepted) [OpenReview]
Contribution: Collected and curated peer-review data, supporting the analysis of responsibility boundaries between AI-generated drafts and human judgments.

Selected Research Project

Evidence-Grounded System for Scientific Originality Evaluation 2026
Primary contribution: data curation, system integration, and end-to-end evaluation

- Built the evaluation dataset by curating expert judgments, benchmark papers, and bibliometric records for a six-level, evidence-traceable originality framework.
- Integrated the complete pipeline across paper screening, dual-agent review, multidimensional rating, and evidence-linked output; evaluated it on benchmark and expert-review sets.

Honors & Awards

2026	IOAI^2 AI Track	**Grand Master Trophy**
2026	ICPC Asia East Continent Final [Result]	Silver Medal
2025	ICPC Asia Xi'an Regional [Result]	Gold Medal
2025	CCPC Zhengzhou Site [Result]	Gold Medal
2025	ICPC Asia Shenyang Regional [Result]	Silver Medal

Technical Skills

Programming Languages: C++, Python
AI-Assisted Development: Rapid prototyping and end-to-end integration of research systems
