EDUCATION

WESTLAKE UNIVERSITY

Hangzhou, China

Undergraduate Program in Artificial Intelligence

2024-Present

GPA: 3.753/4.3 **Selected Coursework:** Machine Learning (A+), Natural Language Processing (A), Large Language Models (A)

RESEARCH INTERESTS

Automated scientific discovery with DeepScientist; scientific agents; representation learning; cognitive NLP

RESEARCH EXPERIENCE

WESTLAKE NLP LAB, WESTLAKE UNIVERSITY

Hangzhou, China

Undergraduate Research; Advisor: Prof. Yue Zhang

2024-Present

- Conduct research in automated scientific discovery and cognitive NLP, with an emphasis on representation learning and scientific agents.
- Contribute to model development, data curation, system integration, and empirical evaluation across lab research projects.

PUBLICATION & POSTER

RepDuet at NLPCC 2026 Chinese BabyLM: Task-Specific Hybrid Representations for the Cognitive Track

Zhenhao Liu, Qiuji Xie, Minjun Zhu, Zhiyuan Ning, Yixuan Weng, Pinzhang Li, Jiajun Wang, and Yue Zhang

Sole first author; accepted poster, NLPCC 2026 Shared Tasks [Paper] [Model & Code]

- Completed the end-to-end research workflow as sole first author: designed task-specific representations, trained models, ran controlled comparisons and stability analyses, and integrated DeepScientist into the research process.
- Produced the organizer-reproduced submission that ranked first in the Cognitive Track; released the model and inference code.

SELECTED RESEARCH PROJECTS

Evidence-Grounded Scientific Originality Evaluation System

2026

Data collection, system integration, and evaluation

- Collected and curated multi-source evidence for the evaluation pipeline, including benchmark records, bibliometric signals, and expert judgments.
- Integrated the full assessment system and conducted end-to-end evaluation across these evidence sources.

How Far Are AI Scientists from Changing the World? A Survey of Autonomous Scientific Discovery

2025 [arXiv]

Research contribution: data collection and curation

- Structured evidence used to map AI-scientist capabilities and unresolved barriers across the scientific discovery lifecycle.

AI Drafts, Humans Judge: Quantifying the Human-AI Responsibility Boundary in Peer Review [OpenReview]

Research contribution: data collection and curation

- Organized study data used to examine the boundary between AI drafting and human evaluative responsibility in peer review.

HONORS

2026 IOAI² AI Track

Grand Master Trophy

2026 ICPC Asia East Continent Final

Silver Medal

2025 ICPC Asia Xi'an Regional

Gold Medal

2025 CCPC Zhengzhou Site

Gold Medal

2025 ICPC Asia Shenyang Regional

Silver Medal

TECHNICAL SKILLS

Research Methods: Representation learning, controlled comparisons, stability analysis, data curation, system integration, empirical evaluation

Machine Learning & Data: PyTorch, Transformers, scikit-learn, pandas

Programming & Tools: Python, Git, FastAPI, Pytest, LaTeX
