Research focus: automated scientific research with DeepScientist, scientific agents, and NLP for science

EDUCATION

Westlake University

Hangzhou, China

Undergraduate, Artificial Intelligence

2024 cohort; GPA 3.753/4.3

Selected coursework: Natural Language Processing (A), Machine Learning (A+), Data Structures & Algorithms (A+), Large Language Models (A)

RESEARCH INTERESTS

Automated scientific research integrating DeepScientist with NLP agents for literature discovery, hypothesis generation, experiment design, coding, and reproducible evaluation

NLP for science data-efficient language modeling, cognitive NLP, and brain-language modeling

RESEARCH EXPERIENCE

Westlake University

Hangzhou, China

Undergraduate research at Westlake NLP Lab; advised by Prof. Yue Zhang

2024-Present [Advisor profile](#)

PUBLICATIONS

RepDuet at NLPCC 2026 Chinese BabyLM: Task-Specific Hybrid Representations for the Cognitive Track

[Model](#)

[Paper PDF](#)

Sole first author; accepted to NLPCC 2026 Shared Tasks Poster

- Integrated DeepScientist into the end-to-end research workflow, independently driving problem formulation, representation design, implementation, evaluation, and paper preparation for data-efficient cognitive language modeling.
- Developed a task-adaptive representation framework and reproducible evaluation pipeline, achieving the top eligible ranking in the Cognitive Track under organizer-reproduced hidden evaluation.

HONORS

2026 ICPC Asia East Continent Final

Silver Medal

2025 ICPC Asia Xi'an Regional

Gold Medal

2025 CCPC Zhengzhou Site

Gold Medal

2025 ICPC Asia Shenyang Regional

Silver Medal

TECHNICAL SKILLS

Programming Python, Git, testing, and reproducibility

AI/NLP DeepScientist, language modeling, cognitive NLP, LLM applications, and scientific agents

Engineering Flask, LangChain, REST APIs, Pytest, Ruff, Mypy, GitHub Actions, and LaTeX
