

Zhenhao Liu

Hangzhou, China • liuzhenhao@westlake.edu.cn • likc1606.github.io • github.com/LikC1606

Education

Westlake University

Undergraduate Program in Artificial Intelligence

GPA: 3.753/4.3

Selected Coursework: Machine Learning (A+), Natural Language Processing (A), Large Language Models (A)

Research Interests

Automated scientific discovery; scientific agents; representation learning; cognitive NLP

Research Experience

Westlake NLP Lab, Westlake University

Undergraduate Research; Advisor: Prof. Yue Zhang

- Conduct research on automated scientific discovery and cognitive NLP through model development, data curation, system integration, and empirical evaluation.

Publication

RepDuet at NLPCC 2026 Chinese BabyLM: Task-Specific Hybrid Representations for the Cognitive Track

Zhenhao Liu, Qiuji Xie, Minjun Zhu, Zhiyuan Ning, Yixuan Weng, Pinzhang Li, Jiajun Wang, and Yue Zhang

NLPCC 2026 Shared Tasks (accepted poster); sole first author [Paper] [Model & Code]

- Designed and executed the end-to-end study, covering task-specific hybrid representation design, model training, controlled comparisons, stability analysis, and integration with DeepScientist.
- Achieved first place in the Cognitive Track under the organizers' reproduction evaluation; released the model and inference code for reproducibility.

Selected Research Projects

Evidence-Grounded System for Scientific Originality Evaluation

Contribution: data collection, system integration, and evaluation

2026

- Collected and organized expert judgments, benchmark papers, and bibliometric records for a six-level, evidence-traceable originality framework.
- Integrated the pipeline from paper screening and dual-agent review through multi-dimensional rating and evidence-linked output; conducted end-to-end evaluation against benchmark and expert-review sets.

How Far Are AI Scientists from Changing the World?

Survey; contribution: data collection and curation

2025 [arXiv]

- Collected and structured evidence used to map AI-scientist capabilities and unresolved barriers across the scientific discovery lifecycle.

AI Drafts, Humans Judge: Quantifying the Human-AI Responsibility Boundary in Peer Review

Contribution: data collection and curation

[OpenReview]

- Collected and organized study data to support analysis of the responsibility boundary between AI-generated drafts and human judgments in peer review.

Honors & Awards

2026 IOAI² AI Track

Grand Master Trophy

2026 ICPC Asia East Continent Final [Result]

Silver Medal

2025 ICPC Asia Xi'an Regional [Result]

Gold Medal

2025 CCPC Zhengzhou Site [Result]

Gold Medal

2025 ICPC Asia Shenyang Regional [Result]

Silver Medal

Technical Skills

Programming: C++, Python

AI-Assisted Programming: Rapid prototyping and research system integration with coding agents
